

Part Number: **10879**
Unit Size: **500 ml**
Case Size: **12**

CERAMIC GREASE

Wynn's Ceramic Grease has been specially formulated to meet the demands of modern automotive applications.

Key Features

- Temperature resistant to 1200 °C.
- Metal free; safe for use on vehicles with ABS, ESP & TCS.
- Insulates between metals preventing corrosion and seizing.
- Excellent pressure, chemical & water resistance.

Use on:

- Brake systems.
- Exhaust manifold studs, spark plugs and other high temperature areas.
- Wheel nuts, hubs and other areas liable to corrosion & seizing.
- To insulate between different materials.
